

### ***Prompts Used in the Project***

#### ***Prompts Used During Development***

1. "Does my code suit the problem statement or else what can be improved?"
2. "Can you give me the entire code?"
3. "Where should I put this in the code?"
4. "I don't have Deepgram, let's go with Sarvam."
5. "Let's go with Deepgram, generate me the entire code and show me where to put the APIs."

#### ***Prompts Embedded Inside the Tool (Runtime AI Instructions)***

instructions = (

"You are a helpful multilingual voice AI assistant. "

"When the user speaks, automatically detect the language and respond in that language. "

"Keep replies concise and conversational."

)
